

****BOIL WATER & CONSERVE WATER NOTICE****

12.24.22

The Town of Davis is under a
Boil Water AND Conserve Water Notice!

The Davis Water Plant has been seriously damaged. Its ability to operate is unknown at this time. We ask that EVERYONE conserve as much water as possible-it is that critical!!

Please do not do laundry, avoid showering, flush toilets only when necessary and avoid washing dishes. However, please continue to take necessary precautions to protect your water lines from freezing.

Please boil your water and help use as little water as possible.
We will keep you informed as the situation changes.

Thank you for your cooperation and patience while we work to restore water to our customers.
