

WATER OUTAGE

Davis Residents & Businesses

Sunday evening, February 25th, the Town will be repairing a major water leak on Rt. 32/William Ave. **The water to the Town WILL BE SHUT OFF** & will not be turned back on until the leak is repaired. This project will occur Sunday night, approximately 9pm & will run through the night into Monday. **Length of repair time is unknown at this time.**

During the repair, traffic will be detoured around the work area, except for tractor trailers and other large vehicles. Fifth Street will be blocked off from William Avenue to Thomas Avenue.

Once the water is turned back on, the Town will be under a Boil Water Advisory. As soon as we hear from the lab, we will notify residents & businesses of when we can lift the **Boil Water Advisory**.

***Monday Commercial & Tuscan Ridge garbage service will be picked up with Tuesday Residential Garbage Service.**

This repair project is occurring during the night, so that it will minimize the impact on residents and businesses. We appreciate your patience and cooperation as our employees work diligently to repair the leak.
